### Knjige i poglavlja u monografijama:

1. Zeljka Marjanovic-Balaban, Dijana Jelić, "Biomaterials in Clinical Practice", Advances in Clinical Research and Medical Devices, Part I, Polymeric Biomaterials in Clinical Practice, Springer International Publisher **2017**, DOI: 10.1007/978-3-319-68025-5, p 101-117
2. Dijana Jelić, Physico-chemical methods of analysis, University of Banjaluka, 2017, ISBN 978-99976-26-05-9

### Projekti:

- „Impact of chemistry on aluminosilicate and oxide materials surfaces by adsorption of acid and basic organic and inorganic components from water medium”, National research project by Ministry for Science and Technology of Republic of Srpska, Faculty of Science and Mathematics, **Member of project team**, 2010-2012
- „Energy efficient synthesis and investigation of some surfaces phenomena on some oxide materials” National research project by Ministry for Science and Technology of Republic of Srpska, Faculty of Science and Mathematics, **Member of project team**, 2013-2014
- „Synthesis, physico-chemical characterisation, quantitative relationships between structure and effects, design, technological and pharmaceutical analysis of pharmacology actives substances”, National research project by Ministry for Science and Technology of Republic of Srpska, Faculty of Medicine, **Coordinator of the project team**, 2014-2015
- „Study of presence and content of heavy metals (Pb, Cd, As, Co, Ni, Cr, Hg) and some preservatives in cosmetics product on Republic of Srpska market by means of AAS, HPLC and UV/VIS spectrophotometry”, National research project by Ministry for Science and Technology of Republic of Srpska, Faculty of Medicine, **Coordinator of the project team**, 2015-2016
- „Fytosynthesis, characterisation and biomedical application of metallic (Ag, Si, Cu) and metallic oxides (ZnO, TiO<sub>2</sub>, CuO, Fe<sub>2</sub>O<sub>3</sub>) nanoparticles: microbiology, biokinetics and toxicology aspect”, National research project by Ministry for Ministry for Scientific and Technological Development, Higher Education and Information Society, Faculty of medicine, **Coordinator of the project team**, 2018
- Member of COST EU project CM1402 - From molecules to crystals - how do organic molecules form crystals? (Crystallise) - **Member of project team from Bosnia and Herzegovina**
